

Welcome to FormFire!

Summitworks is working with C.G. Benefits to get a quote for benefits. To ensure your group is getting the best possible benefits at the best price, C.G. Benefits is using FormFire to collect medical history information.

We make it easy. With FormFire, you will enter information online about you and your dependents through a streamlined series of questions one time, rather than filling out multiple paper applications. Since your information is stored securely from year to year, next time you'll only have to verify your information and make any updates.

Frequently Asked Questions

Will this take long?

This depends on how much data you must enter (dependents, medical conditions, etc.) and whether you are electing benefits. Also, it is helpful to have the information listed above ready before starting. On average, it takes between 10-15 minutes to complete the process for yourself and about 30–45 minutes for a family of four.

Will I be asked medical questions?

Yes, the collection or confirmation of your current medical information is a required part of the application and enrollment process.

What if I'm waiving coverage?

Even if you're waiving coverage, you must still create an account unless directed otherwise. However, you will not be required to enter any medical information about you or your dependents, so the time to complete the process will be much shorter.

What if I have more questions?

Additional help and answers to frequently asked questions are provided throughout the site.
